Neither the Securities and Exchange Commission nor any state securities agency has approved or disapproved the fund's shares or determined whether this prospectus is accurate or complete. Any representation to the contrary is a crime.

An investment in the fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

Contact your investment professional to discuss how the fund fits into your portfolio.

Basic information about the fund

Investment objective

High current income, preservation of capital and liquidity through investments in high-quality short-term securities.

Principal investment strategies

The fund is a money market fund. The fund seeks to maintain a constant net asset value of \$1.00 per share by investing in high-quality, U.S. dollar denominated money market securities of U.S. and non-U.S. issuers, including those issued by:

- U.S. and non-U.S. banks
- U.S. and non-U.S. corporate or private issuers
- The U.S. government and its agencies and instrumentalities
- Non-U.S. governments
- Multinational organizations such as the World Bank

The fund may invest more than 25% of its total assets in U.S. government securities and obligations of U.S. banks. The fund may invest in any money market instrument that is a permissible investment for a money market fund under the rules of the Securities and Exchange Commission, including commercial paper, certificates of deposit, time deposits, bankers' acceptances, mortgage-backed and asset-backed securities, repurchase agreements, municipal obligations and other short-term debt securities. These investments may include instruments specifically structured so that they are eligible for purchase by money market funds, including securities that have demand, tender or put features, auction features or interest rate reset features. The fund's investments also may include U.S. dollar denominated securities issued by non-U.S. governments and multinational issuers, such as the World Bank.

The fund invests in U.S. government obligations and money market securities rated in one of the two highest rating categories for short-term debt by a nationally recognized statistical rating organization or, if unrated, determined to be of equivalent credit quality by Pioneer Investment Management, Inc., the fund's investment adviser. If rating organizations differ in the rating assigned to a security, the fund will only treat the security as having the higher rating if at least two rating organizations assigned that rating. If a rating organization downgrades the quality rating assigned to one or more of the fund's portfolio securities, Pioneer will promptly reassess whether the downgraded security presents minimal credit risk to the fund.

The fund invests exclusively in securities with a maximum remaining maturity of 397 days and maintains a dollar-weighted average portfolio maturity of 90 days or less. The fund's investments may have fixed, floating or variable interest rates.

In selecting the fund's portfolio, Pioneer complies with the rating, maturity and diversification requirements applicable to money market funds. Within those limits, Pioneer's assessment of broad economic factors that are expected to affect

Basic information about the fund

economic activity and interest rates influence its securities selection. Pioneer also employs fundamental research to evaluate an issuer based on its financial statements and operations, to assess an issuer's credit quality.

Money market securities

Money market securities include:

- Securities issued or guaranteed by the U.S. government, its agencies or instrumentalities
- Corporate debt securities, including commercial paper
- Obligations of U.S. and non-U.S. banks
- Repurchase agreements
- Mortgage- and asset-backed securities
- Securities issued by non-U.S. governments and non-U.S. corporate or private issuers
- Municipal obligations

Principal risks of investing in the fund

An investment in the fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to maintain a constant net asset value of \$1.00 per share, there can be no assurance that this will be the case, and it is possible to lose money by investing in the fund. A decline in the market value of a fund investment, lack of liquidity in the bond markets or other market events, including the ongoing global financial crisis, could cause the value of your investment in the fund, or its yield, to decline.

- Interest rates go up, causing the value of the fund's investments to decline. This is known as interest rate risk (this risk may be greater for securities with longer maturities)
- If the issuer (or other obligor) of a security owned by the fund fails to pay principal and/or interest, otherwise defaults or is perceived to be less creditworthy, the security's credit rating is downgraded or the quality or value of any underlying assets declines, the value of your investment in the fund could decline significantly. This is known as credit risk
- When interest rates are very low, the fund expenses could absorb all or a significant portion of the fund's income, and, if the fund's expenses exceed the fund's income, the fund may be unable to maintain its \$1.00 share price
- The fund may invest more than 25% of its total assets in obligations of U.S. banks. This means that an investment in the fund is particularly susceptible to events affecting the banking industry. Banks depend upon being able to obtain funds at reasonable costs and upon liquidity in the capital and credit markets to finance their lending and other operations. This makes them sensitive to changes in money market and general economic conditions. The failure of a bank's borrowers to repay loans will adversely affect the bank's financial

situation. Banks are highly regulated. Decisions by regulators may limit the loans banks make and the interest rates and fees they charge, and may reduce bank profitability. The ongoing global financial crisis has severely affected many banks, other financial institutions and other obligors of money market securities. Governmental entities recently have provided support to certain financial institutions, but there is no assurance they will continue to do so

- A counterparty in a repurchase agreement fails to honor the terms of its agreement
- The issuer of a security owned by the fund may not be able to make timely payments because of a general economic downturn or increased governmental costs
- The fund may experience periods of heavy redemptions that could cause the fund to liquidate its assets at inopportune times or at a loss or depressed value, particularly during periods of declining or illiquid markets. Redemption risk is greater to the extent that the fund has investors with large shareholdings, short investment horizons, or unpredictable cash flow needs. The redemption by one or more large shareholders of their holdings in the fund could have an adverse impact on the remaining shareholders in the fund
- Pioneer's judgment about the credit quality, attractiveness or relative value of a particular security proves to be incorrect

The credit quality of a fund's securities may change rapidly, particularly during periods of market turmoil. If, after purchase, the credit rating on a security is downgraded or the credit quality deteriorates, or if the maturity is extended, the fund's portfolio managers will decide whether the security should be held or sold. Upon the occurrence of certain triggering events or defaults on a security held by the fund, or if an issuer of such a security has difficulty meeting its obligations, the fund may become the holder of a restructured security or of underlying assets. In that case, the fund may become the holder of securities or other assets that it could not otherwise purchase (for example, because they are of lower quality or are subordinated to other obligations of the issuer) at a time when those assets may be difficult to sell or can be sold only at a loss. In addition, the fund may incur expenses to protect the fund's interest in securities experiencing these events. Any of these events may cause a fund's share price to go down.

Certain structured securities in which the fund invests may be considered derivative instruments. Investments in these securities may raise certain tax, legal, regulatory and accounting issues which may not be presented by other investments and which may be resolved in a manner adverse to the fund.

Investing in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers. These risks may include:

- Inadequate financial information
- Smaller, less liquid and more volatile markets
- Political and economic upheavals

Basic information about the fund

Reverse repurchase agreements and borrowing

The fund may enter into reverse repurchase agreements pursuant to which the fund transfers securities to a counterparty in return for cash, and the fund agrees to repurchase the securities at a later date and for a higher price. Reverse repurchase agreements are treated as borrowings by the fund, are a form of leverage and may make the value of an investment in the fund more volatile and increase the risks of investing in the fund. This is because leverage generally magnifies the effect of any increase or decrease in the value of the fund's underlying assets or creates investment risk with respect to a larger pool of assets than the fund would otherwise have. The fund also may borrow money from banks or other lenders for temporary purposes. Entering into reverse repurchase agreements and other borrowing transactions may cause the fund to liquidate positions when it may not be advantageous to do so in order to satisfy its obligations or meet segregation requirements.

Market segment risks

To the extent the fund emphasizes, from time to time, investments in a market segment, the fund will be subject to a greater degree to the risks particular to the industries in that segment, and may experience greater market fluctuation, than a fund without the same focus. For example, industries in the financial segment, such as banks, insurance companies, broker-dealers and real estate investment trusts (REITs), may be sensitive to changes in interest rates and general economic activity and are generally subject to extensive government regulation.

The fund's past performance

The bar chart and table indicate the risks of investing in the fund by showing how the fund has performed in the past. The fund's performance will vary from year to year.

The performance of Class Y shares for the period prior to the commencement of operations of Class Y on September 23, 2005 is the net asset value performance of the fund's Class A shares, which has not been restated to reflect any differences in expenses, including Rule 12b-1 fees applicable to Class A shares.

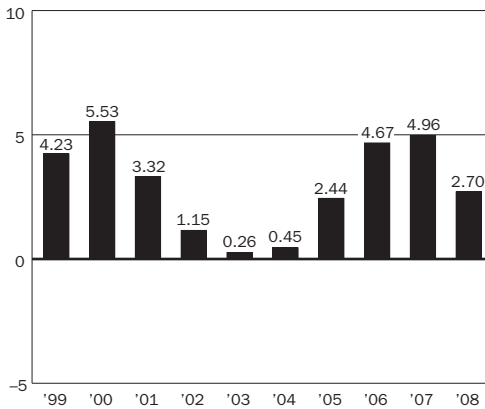

The fund's past performance (before and after taxes) does not necessarily indicate how it will perform in the future. As a shareowner, you may lose or make money on your investment.

Fund performance

The chart shows the year-by-year performance of the fund's Class Y shares.

Annual return Class Y shares (%)

(Year ended December 31)

For the period covered by the bar chart:

The highest calendar quarterly return was 1.45% (10/01/2000 to 12/31/2000)

The lowest calendar quarterly return was 0.01% (10/01/2003 to 12/31/2003)

Basic information about the fund

Comparison with the 90-day U.S. Treasury Bill

The table shows the average annual total returns for Class Y shares of the fund over time and compares these returns to the returns of the 90-day U.S. Treasury Bill. The fund's 7-day yield for the period December 24 to December 31, 2008 was:

Class Y: 1.45%

Please contact Pioneer at 1-800-225-6292 to obtain the fund's current 7-day yield.

The table:

- Assumes that you sell your shares at the end of the period
- Assumes that you reinvest all of your dividends and distributions

You do not pay a sales charge on purchases or redemptions of Class Y shares.

Average annual total return (%)

(for periods ended December 31, 2008)

	1 Year	5 Years	10 Years	Since Inception	Inception Date#
Class Y					6/22/87
Return before taxes	2.70	3.02	2.95	4.19	
90-day U.S. Treasury Bill (reflects no deduction for fees, expenses or taxes)	1.40	2.97	3.16	4.41	

Inception date of the fund's Class A shares. Class Y shares commenced operations on September 23, 2005.

Fees and expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund.

Shareowner fees

paid directly from your investment

	Class Y
Maximum sales charge (load) when you buy shares	None
Maximum deferred sales charge (load) when you sell shares	None

Annual fund operating expenses

paid from the assets of the fund

as a percentage of average daily net assets	Class Y
Management Fee	0.40%
Distribution and Service (12b-1) Fee	0.00%
Other Expenses	0.16%
Total Annual Fund Operating Expenses ^{1,2}	0.56%

Example

This example helps you compare the cost of investing in the fund with the cost of investing in other mutual funds. It assumes that: a) you invest \$10,000 in the fund for the time periods shown, b) you reinvest all dividends and distributions, c) your investment has a 5% return each year and d) the fund's operating expenses remain the same.

Although your actual costs may be higher or lower, under these assumptions your costs would be:

	Number of years you own your shares			
	1	3	5	10
Class Y	\$57	\$179	\$313	\$701

- 1 Total annual fund operating expenses reflect amounts incurred by the fund during its most recent fiscal year. Expenses will vary based on changes in the fund's net asset levels. Total annual fund operating expenses shown have not been reduced by any expense offset arrangements.
- 2 Pioneer may limit the fund's expenses for any class of shares or waive a portion of its management fee to maintain a net asset value of \$1.00 per share. From time to time, Pioneer and its affiliates may limit the expenses of one or more classes or waive a portion of its management fee for the purpose of avoiding a negative yield or increasing the fund's yield during the period of the limitation. These expense limitation policies are voluntary and temporary and may be revised or terminated by Pioneer at any time without notice.

Management

Pioneer, the fund's investment adviser,

selects the fund's investments and oversees the fund's operations.

Pioneer is an indirect, wholly owned subsidiary of UniCredit S.p.A., one of the largest banking groups in Italy. Pioneer is part of the global asset management group providing investment management and financial services to mutual funds, institutional and other clients. As of March 31, 2009, assets under management were approximately \$205 billion worldwide, including over \$44 billion in assets under management by Pioneer.

Investment adviser

Pioneer's main office is at 60 State Street, Boston, Massachusetts 02109. The firm's U.S. mutual fund investment history includes creating in 1928 one of the first mutual funds.

Pioneer has received an order from the Securities and Exchange Commission that permits Pioneer, subject to the approval of the fund's Board of Trustees, to hire and terminate a subadviser or to materially modify an existing subadvisory contract for the fund without shareholder approval. Pioneer retains the ultimate responsibility to oversee and recommend the hiring, termination and replacement of any subadviser. To the extent that the Securities and Exchange Commission adopts a rule that would supersede the order, or would provide greater flexibility than the order, Pioneer and the fund intend to rely on such rule to permit Pioneer, subject to the approval of the fund's Board of Trustees and any other applicable conditions of the rule, to hire and terminate a subadviser or to materially modify an existing subadvisory contract for the fund without shareholder approval.

Portfolio management

Day-to-day management of the fund's portfolio is the responsibility of Seth Roman. Mr. Roman is supported by the fixed income team. Members of this team manage other Pioneer funds investing primarily in fixed income securities. The portfolio manager and the team also may draw upon the research and investment management expertise of Pioneer's affiliate, Pioneer Investment Management Limited. Mr. Roman joined Pioneer as a portfolio manager in March 2006 and has been an investment professional for over 10 years. Prior to joining Pioneer, Mr. Roman was a fixed income trader for Fidelity Management and Research Company.

The fund's statement of additional information provides additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager, and the portfolio manager's ownership of shares of the fund.

Management fee

The fund pays Pioneer a fee for managing the fund and to cover the cost of providing certain services to the fund.

Pioneer's annual fee is equal to 0.40% of the fund's average daily net assets up to \$1 billion and 0.35% on assets over \$1 billion.

The fee is accrued daily and paid monthly.

For the fiscal year ended December 31, 2008, the fund paid management fees equivalent to 0.40% of the fund's average daily net assets.

A discussion regarding the basis for the Board of Trustees' approval of the management contract is available in the fund's semiannual report to shareholders for the period ended June 30, 2008.

Distributor and transfer agent

Pioneer Funds Distributor, Inc. is the fund's distributor. Pioneer Investment Management Shareholder Services, Inc. is the fund's transfer agent. The fund compensates the distributor and transfer agent for their services. The distributor and the transfer agent are affiliates of Pioneer.

Disclosure of portfolio holdings

The fund's policies and procedures with respect to disclosure of the fund's portfolio securities are described in the statement of additional information.

Buying, exchanging and selling shares

Net asset value

The fund's net asset value is the value of its securities plus other assets minus its accrued operating expenses and other liabilities. The fund calculates a net asset value for each class of shares twice daily, every day the New York Stock Exchange is open, at 2:00 p.m. Eastern time and when regular trading closes (normally 4:00 p.m. Eastern time).

The fund generally values its securities using the amortized cost method. This valuation method assumes a steady rate of amortization of any premium or discount from the date of purchase until the maturity of each security.

You buy or sell Class Y shares at the share price.

Other classes of shares may be available that are not offered in this prospectus.

Share price

The net asset value per share next calculated after your transaction.

Distribution of Class Y shares

The distributor incurs the expenses of distributing the fund's Class Y shares, none of which are reimbursed by the fund or the Class Y shareowners. Distribution expenses include fees paid to broker-dealers which have sales agreements with the distributor and other parties, advertising expenses and the cost of printing and mailing prospectuses to potential investors.

Payments to financial intermediaries

Pioneer and its affiliates may make payments to your financial intermediary. These payments by Pioneer may provide your financial intermediary with an incentive to favor the Pioneer funds over other mutual funds or assist the distributor in its efforts to promote the sale of the fund's shares. Financial intermediaries include broker-dealers, banks (including bank trust departments), registered investment advisers, financial planners, retirement plan administrators and other types of intermediaries.

Pioneer makes these payments (sometimes referred to as "revenue sharing") to financial intermediaries out of its own assets, which may include profits derived from services provided to the fund. Pioneer may base these payments on a variety of criteria, including the amount of sales or assets of the Pioneer funds attributable to the financial intermediary or as a per transaction fee.

Not all financial intermediaries receive compensation and the amount of compensation paid varies for each financial intermediary. In certain cases, these payments may be significant. Pioneer determines which firms to support and the extent of the payments it is willing to make, generally choosing firms that have a

strong capability to effectively distribute shares of the Pioneer funds and that are willing to cooperate with Pioneer's promotional efforts. Pioneer also may compensate financial intermediaries (in addition to amounts that may be paid by the fund) for providing certain administrative services and transaction processing services.

Pioneer may benefit from revenue sharing if the intermediary features the Pioneer funds in its sales system (such as by placing certain Pioneer funds on its preferred fund list or giving access on a preferential basis to members of the financial intermediary's sales force or management). In addition, the financial intermediary may agree to participate in the distributor's marketing efforts (such as by helping to facilitate or provide financial assistance for conferences, seminars or other programs at which Pioneer personnel may make presentations on the Pioneer funds to the intermediary's sales force). To the extent intermediaries sell more shares of the Pioneer funds or retain shares of the Pioneer funds in their clients' accounts, Pioneer receives greater management and other fees due to the increase in the Pioneer funds' assets. The intermediary may earn a profit on these payments if the amount of the payment to the intermediary exceeds the intermediary's costs.

The compensation that Pioneer pays to financial intermediaries is discussed in more detail in the fund's statement of additional information. Your intermediary may charge you additional fees or commissions other than those disclosed in this prospectus. Intermediaries may categorize and disclose these arrangements differently than in the discussion above and in the statement of additional information. You can ask your financial intermediary about any payments it receives from Pioneer or the Pioneer funds, as well as about fees and/or commissions it charges.

Pioneer and its affiliates may have other relationships with your financial intermediary relating to the provision of services to the Pioneer funds, such as providing omnibus account services or effecting portfolio transactions for the Pioneer funds. If your intermediary provides these services, Pioneer or the Pioneer funds may compensate the intermediary for these services. In addition, your intermediary may have other relationships with Pioneer or its affiliates that are not related to the Pioneer funds.

Buying, exchanging and selling shares

Opening your account

If you are an individual or other non-institutional investor, open your Class Y share account by completing an account application and sending it to the transfer agent by mail or by fax. If you are any other type of investor, please call the transfer agent to obtain a Class Y share account application and an account number.

If you invest in the fund through investment professionals or other financial intermediaries, including wrap programs and fund supermarkets, additional conditions may apply to your investment in the fund, and the investment professional or intermediary may charge you a transaction-based or other fee for its services. These conditions and fees are in addition to those imposed by the fund and its affiliates. You should ask your investment professional or financial intermediary about its services and any applicable fees.

The transfer agent must receive your account application before you send your initial check or federal funds wire. In addition, you must provide a bank wire address of record when you establish your account.

If your shares are held in your investment firm's name, the options and services available to you may be different from those discussed in this prospectus. Ask your investment professional or financial intermediary for more information.

Account options

Use your account application to select options and privileges for your account. You can change your selections at any time by sending a completed account options form to the transfer agent. You may be required to obtain a signature guarantee to make certain changes to an existing account.

Call or write to the transfer agent for account applications, account options forms and other account information:

Pioneer Investment Management Shareholder Services, Inc.

P.O. Box 55150
Boston, Massachusetts 02205-5150
Telephone 1-800-665-8839

Telephone transaction privileges

If your account is registered in your name, you can exchange or sell Class Y shares by telephone. If you do not want your account to have telephone transaction privileges, you must indicate that choice on your account application or by writing to the transfer agent.

When you request a telephone transaction the transfer agent will try to confirm that the request is genuine. The transfer agent records the call, requires the caller to provide validating information for the account and sends you a written confirmation. The fund may implement other confirmation procedures from time to time. Different procedures may apply if you have a non-U.S. account or if your account is registered in the name of an institution, broker-dealer or other third party.

By phone

If you want to place your telephone transaction by speaking to a shareowner services representative, call 1-800-665-8839 between 9:00 a.m. and 5:30 p.m. Eastern time on any weekday that the New York Stock Exchange is open.

General rules on buying, exchanging and selling your fund shares

Share price

If you place an order to purchase, exchange or sell shares with the transfer agent or an authorized agent by the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern time) (except for orders received by 2:00 p.m. meeting the requirements referenced below), your transaction will be completed at the share price determined as of the close of regular trading on the New York Stock Exchange on that day. If your order is placed with the transfer agent or an authorized agent after the close of regular trading on the New York Stock Exchange, or your order is not in good order, your transaction will be completed at the share price next determined after your order is received in good order by the fund. The authorized agent is responsible for transmitting your order to the fund in a timely manner.

On any day that the money markets in which the fund invests close early, such as days in advance of holidays or in the event of an emergency, the fund reserves the right to advance the time when the fund's share price is determined (and by which transaction orders must be received) to the closing time of the markets.

You begin earning dividends on the first business day after the fund is credited with same day funds for your purchase. However, if your purchase order is received by the fund by 2:00 p.m. with payment through same-day wire meeting the requirements referenced below, you also will receive dividends declared that day.

There are special requirements if you wish to purchase fund shares by wire, have your order executed at 2:00 p.m. and receive dividends for that day. You or your investment firm must contact the fund's transfer agent, Pioneer Investment Management Shareholder Services, Inc. at 1-800-225-6292, to be pre-approved.

Buying, exchanging and selling shares

Wire transfers normally take two or more hours to complete and a fee may be charged by the sending bank

Good order means that:

- You have provided adequate instructions
- There are no outstanding claims against your account
- There are no transaction limitations on your account
- If you have any fund share certificates, you submit them and they are signed by each record owner exactly as the shares are registered
- Your request includes a signature guarantee if you:
 - Are selling over \$100,000 worth of shares and
 - Want the sale proceeds sent to an address other than your bank account of record or
 - Want the sale proceeds to be made payable to someone other than the account's record owners or
 - Changed your account registration, address of record or bank account of record within the last 30 days
 - Are selling or exchanging over \$5 million worth of shares
 - Are transferring the sale proceeds to a Pioneer mutual fund account with a different registration

Transaction limitations

Your transactions are subject to certain limitations, including the limitation on the purchase of the fund's shares within 30 calendar days of a redemption. See "Excessive trading."

Buying

You can buy Class Y shares at net asset value per share. The fund does not impose any initial, contingent deferred or asset based sales charge on Class Y shares. The distributor may reject any order until it has confirmed the order in writing and received payment. The fund reserves the right to stop offering any class of shares.

You may use securities you own to purchase shares of the fund provided that Pioneer, in its sole discretion, determines that the securities are consistent with the fund's objective and policies and their acquisition is in the best interests of the fund. If the fund accepts your securities, they will be valued for purposes of determining the number of fund shares to be issued to you in the same way the fund will value the securities for purposes of determining its net asset value. For federal income tax purposes, you may be taxed in the same manner as if you sold the securities that you use to purchase fund shares for cash in an amount equal to the value of the fund shares that you purchase. Your broker may also impose a fee in connection with processing your purchase of fund shares with securities.

Minimum investment amount

Your initial Class Y share investment must be at least \$5 million. This amount may be invested in one or more of the Pioneer mutual funds that currently offer Class Y shares. There is no minimum additional investment amount. The fund may waive the initial investment amount.

Waivers of the minimum investment amount

The fund will accept an initial investment of less than \$5 million if:

- (a) The investment is made by a trust company or bank trust department which is initially investing at least \$1 million in any of the Pioneer mutual funds and, at the time of the purchase, such assets are held in a fiduciary, advisory, custodial or similar capacity over which the trust company or bank trust department has full or shared investment discretion; or
- (b) The investment is at least \$1 million in any of the Pioneer mutual funds and the purchaser is an insurance company separate account; or
- (c) The account is not represented by a broker-dealer and the investment is made by (1) an ERISA-qualified retirement plan that meets the requirements of Section 401 of the Internal Revenue Code, (2) an employer-sponsored retirement plan that meets the requirements of Sections 403 or 457 of the Internal Revenue Code, (3) a private foundation that meets the requirements of Section 501(c)(3) of the Internal Revenue Code or (4) an endowment or other organization that meets the requirements of Section 509(a)(1) of the Internal Revenue Code; or
- (d) The investment is made by an employer-sponsored retirement plan established for the benefit of (1) employees of Pioneer or its affiliates, or (2) employees or the affiliates of broker-dealers who have a Class Y shares sales agreement with the distributor; or
- (e) The investment is made through certain mutual fund programs sponsored by qualified intermediaries, such as broker-dealers and investment advisers. In each case, the intermediary has entered into an agreement with Pioneer to include Class Y shares of the Pioneer mutual funds in their program. The intermediary provides investors participating in the program with additional services, including advisory, asset allocation, recordkeeping or other services. You should ask your investment firm if it offers and you are eligible to participate in such a mutual fund program and whether participation in the program is consistent with your investment goals. The intermediaries sponsoring or participating in these mutual fund programs may also offer their clients other classes of shares of the funds and investors may receive different levels of services or pay different fees depending upon the class of shares included in the program. Investors should consider carefully any separate

Buying, exchanging and selling shares

transaction and other fees charged by these programs in connection with investing in each available share class before selecting a share class; or

(f) The investment is made by another Pioneer fund

The fund reserves the right to waive the initial investment minimum in other circumstances.

Identity verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will need to supply your name, address, date of birth, and other information that will allow the fund to identify you.

The fund may close your account if we cannot adequately verify your identity. The redemption price will be the net asset value on the date of redemption.

Exchanging

You may exchange your Class Y shares for the Class Y shares of another Pioneer mutual fund.

Your exchange request must be for at least \$1,000. The fund allows you to exchange your Class Y shares (except Class A shares purchased directly) at net asset value without charging you either an initial or contingent deferred sales charge.

Before you request an exchange, consider each fund's investment objective and policies as described in the fund's prospectus.

Selling

Your Class Y shares will be sold at net asset value per share next calculated after the fund or its authorized agent, such as a broker-dealer, receives your request in good order. If a signature guarantee is required, you must submit your request in writing.

There are special requirements if you wish to have your order executed at 2:00 p.m. and receive your redemption proceeds by wire that same day. You or your investment firm must contact the fund's transfer agent, Pioneer Investment Management Shareholder Services, Inc. at 1-800-225-6292, to be pre-approved. You will not receive that day's dividend.

The fund generally will send your sale proceeds by check, bank wire or electronic funds transfer. Normally you will be paid within seven days. If you recently sent a check to purchase the shares being sold, the fund may delay payment of the sale proceeds until your check has cleared. This may take up to 10 calendar days from the purchase date.

If you are selling shares from a non-retirement account or certain IRAs, you may use any of the methods described below. If you are selling shares from a retirement account other than an IRA, you must make your request in writing.

Other requirements

If you must use a written request to exchange or sell your Class Y shares and your account is registered in the name of a corporation or other fiduciary, you must include the name of an authorized person and a certified copy of a current corporate resolution, certificate of incumbency or similar legal document showing that the named individual is authorized to act on behalf of the record owner.

You generally will have to pay income taxes on a sale or an exchange.

Buying, exchanging and selling shares

Buying shares

In writing, by mail

You can purchase Class Y shares by **mailing a check to the transfer agent**. Make your check payable to the fund. Neither initial nor subsequent investments should be made by third party check. Your check must be in U.S. dollars and drawn on a U.S. bank. Include in your purchase request the fund's name, the account number and the name or names in the account registration.

If you are registering an account in the name of a corporation or other fiduciary, you must send your completed account set-up forms to the transfer agent prior to making your initial purchase.

By wire

If you have an existing Class Y account, you **may wire funds to purchase Class Y shares**. Note, however, that:

- State Street Bank must receive your wire no later than 11:00 a.m. Eastern time on the business day after the fund receives your request to purchase shares
- If State Street Bank does not receive your wire by 11:00 a.m. Eastern time on the next business day, your transaction will be canceled at your expense and risk
- Wire transfers normally take two or more hours to complete and a fee may be charged by the sending bank
- Wire transfers may be restricted on holidays and at certain other times

Instruct your bank to wire funds to:

Receiving Bank: State Street Bank
and Trust Company
225 Franklin Street
Boston, MA 02101
ABA Routing No. 011000028

Exchanging shares

In writing, by mail or by fax

You can exchange Class Y shares by **mailing or faxing a letter of instruction to the transfer agent**. You can exchange fund shares directly through the fund only if your account is registered in your name. However, you may not fax an exchange request for more than \$5 million. Include in your letter:

- The name and signature of all registered owners
- A signature guarantee for each registered owner if the amount of the exchange is more than \$5 million
- The name of the fund out of which you are exchanging and the name of the fund into which you are exchanging
- The dollar amount or number of Class Y shares you are exchanging

By phone

After you establish your Class Y account, **you can exchange fund shares by phone if:**

- You are using the exchange to establish a new account, provided the new account has a registration identical to the original account
- The fund into which you are exchanging offers Class Y shares
- You are not exchanging more than \$5 million worth of shares per account per day
- You can provide the proper account identification information

Through your investment firm

Consult your investment professional for more information about exchanging your shares.

Buying, exchanging and selling shares

Selling shares

In writing, by mail or by fax

You can sell some or all of your Class Y shares by **writing directly to the fund** only if your account is registered in your name. Include in your request your name, the fund's name, your fund account number, the dollar amount or number of Class Y shares to be sold and any other applicable requirements as described below.

- The transfer agent will send the sale proceeds to your address of record unless you provide other instructions
- Your request must be signed by all registered owners
- The transfer agent will not process your request until it is received in good order

By fax

- You may sell up to \$5 million per account per day if the proceeds are directed to your bank account of record
- You may sell up to \$100,000 per account per day if the proceeds are not directed to your bank account of record

By phone or wire

- You may sell up to \$5 million per account per day if the proceeds are directed to your bank account of record
- You may sell up to \$100,000 per account per day if the proceeds are not directed to your bank account of record

You may sell fund shares held in a retirement plan account by phone only if your account is an IRA. You may not sell your shares by phone if you have changed your address (for checks) or your bank information (for wires and transfers) in the last 30 days.

You may receive your sale proceeds:

- By check, provided the check is made payable exactly as your account is registered
- By bank wire or by electronic funds transfer, provided the sale proceeds are being sent to your bank address of record

Through your investment firm

Consult your investment professional for more information. The fund has authorized the distributor to act as its agent in the repurchase of fund shares from qualified investment firms. The fund reserves the right to terminate this procedure at any time.

Buying, exchanging and selling shares

Excessive trading

Frequent trading into and out of the fund can disrupt portfolio management strategies, harm fund performance by forcing the fund to hold excess cash or to liquidate certain portfolio securities prematurely and increase expenses for all investors, including long-term investors who do not generate these costs. An investor may use short-term trading as a strategy, for example, if the investor believes that the valuation of the fund's portfolio securities for purposes of calculating its net asset value does not fully reflect the then-current fair market value of those holdings. The fund discourages, and does not take any intentional action to accommodate, excessive and short-term trading practices, such as market timing. Although there is no generally applied standard in the marketplace as to what level of trading activity is excessive, we may consider trading in the fund's shares to be excessive for a variety of reasons, such as if:

- You sell shares within a short period of time after the shares were purchased;
- You make two or more purchases and redemptions within a short period of time;
- You enter into a series of transactions that indicate a timing pattern or strategy; or
- We reasonably believe that you have engaged in such practices in connection with other mutual funds.

The fund's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of fund shares by fund investors. Pursuant to these policies and procedures, we monitor selected trades on a daily basis in an effort to detect excessive short-term trading. If we determine that an investor or a client of a broker or other intermediary has engaged in excessive short-term trading that we believe may be harmful to the fund, we will ask the investor, broker or other intermediary to cease such activity and we will refuse to process purchase orders (including purchases by exchange) of such investor, broker, other intermediary or accounts that we believe are under their control. In determining whether to take such actions, we seek to act in a manner that is consistent with the best interests of the fund's shareholders.

While we use our reasonable efforts to detect excessive trading activity, there can be no assurance that our efforts will be successful or that market timers will not employ tactics designed to evade detection. If we are not successful, your return from an investment in the fund may be adversely affected. Frequently, fund shares are held through omnibus accounts maintained by financial intermediaries such as brokers and retirement plan administrators, where the holdings of multiple shareholders, such as all the clients of a particular broker or other intermediary, are aggregated. Our ability to monitor trading practices by investors purchasing shares through omnibus accounts may be limited and dependent upon the cooperation of the broker or other intermediary in taking steps to limit this type of activity.

The fund may reject a purchase or exchange order before its acceptance or the issuance of shares. The fund may also restrict additional purchases or exchanges

in an account. Each of these steps may be taken for any transaction, for any reason, without prior notice, including transactions that the fund believes are requested on behalf of market timers. The fund reserves the right to reject any purchase or exchange request by any investor or financial institution if the fund believes that any combination of trading activity in the account or related accounts is potentially disruptive to the fund. A prospective investor whose purchase or exchange order is rejected will not achieve the investment results, whether gain or loss, that would have been realized if the order were accepted and an investment made in the fund. The fund and its shareholders do not incur any gain or loss as a result of a rejected order. The fund may impose further restrictions on trading activities by market timers in the future.

To limit the negative effects of excessive trading on the fund, the fund has adopted the following restriction on investor transactions. If an investor redeems \$5,000 or more (including redemptions that are a part of an exchange transaction) from the fund, that investor shall be prevented (or “blocked”) from purchasing shares of the fund (including purchases that are a part of an exchange transaction) for 30 calendar days after the redemption. This policy does not apply to systematic purchase or withdrawal plan transactions, transactions made through employer-sponsored retirement plans described under Section 401(a), 403(b) or 457 of the Internal Revenue Code or employee benefit plans, scheduled (Internal Revenue Code Section 72(t) election) or mandatory (required minimum distribution) withdrawals from IRAs, rebalancing transactions made through certain asset allocation or “wrap” programs, transactions by insurance company separate accounts or transactions by other funds that invest in the fund. This policy does not apply to purchase or redemption transactions of less than \$5,000 or to the Pioneer money market funds.

We rely on financial intermediaries that maintain omnibus accounts to apply to their customers either the fund’s policy described above or their own policies or restrictions designed to limit excessive trading of fund shares. However, we do not impose this policy at the omnibus account level.

Account options

Distribution options

The fund offers two distribution options. Any fund shares you buy by reinvesting distributions will be priced at the applicable net asset value per share.

- (1) Unless you indicate another option on your account application, any dividends and capital gain distributions paid to you by the fund will automatically be invested in additional fund shares.
- (2) You may elect to have the full amount of any dividends and/or capital gain distributions paid to you in a monthly check.

Buying, exchanging and selling shares

You may also direct that the dividend checks be paid to another person or to an address other than your address of record. You must provide a signature guarantee if you make this election after you open your account.

If your distribution check is returned to the transfer agent or you do not cash the check for six months or more, the transfer agent may reinvest the amount of the check in your account and automatically change the distribution option on your account to option (1) until you request a different option in writing. If the amount of a distribution check would be less than \$10, the fund may reinvest the amount in additional shares of the fund instead of sending a check. Additional shares of the fund will be purchased at the then-current net asset value.

Shareowner services

Pioneer website

www.pioneerinvestments.com

The website includes a full selection of information on mutual fund investing.

You can also use the website to get:

- Your current account information
- Prices, returns and yields of all publicly available Pioneer mutual funds
- Prospectuses, statements of additional information and shareowner reports for all the Pioneer mutual funds
- A copy of Pioneer's privacy notice

FactFoneSM 1-800-225-4321

You can use FactFoneSM to:

- Obtain current information on your Pioneer mutual fund accounts
- Inquire about the prices and yields of all publicly available Pioneer mutual funds
- Request account statements

If your account is registered in the name of a broker-dealer or other third party, you may not be able to use FactFoneSM to obtain account information.

Confirmation statements

The transfer agent maintains an account for each investment firm or individual shareowner and records all account transactions. You will be sent confirmation statements showing the details of your transactions as they occur, except automatic investment plan transactions, which are confirmed quarterly. If you have more than one Pioneer mutual fund account registered in your name, the Pioneer combined account statement will be mailed to you each quarter.

Tax information

Early each year, the fund will mail you information about the tax status of the dividends and distributions paid to you by the fund.

Privacy

The fund has a policy that protects the privacy of your personal information. A copy of Pioneer's privacy notice was given to you at the time you opened your account. The fund will send you a copy of the privacy notice each year. You may also obtain the privacy notice by calling the transfer agent or through Pioneer's website.

Shareowner account policies

Signature guarantees and other requirements

You are required to obtain a signature guarantee when:

- Requesting certain types of exchanges or sales of fund shares
- Requesting certain types of changes for your existing account

You can obtain a signature guarantee from most broker-dealers, banks, credit unions (if authorized under state law) and federal savings and loan associations. You cannot obtain a signature guarantee from a notary public.

The Pioneer funds generally accept only medallion signature guarantees. A medallion signature guarantee may be obtained from a domestic bank or trust company, broker, dealer, clearing agency, savings association, or other financial institution that is participating in a medallion program recognized by the Securities Transfer Association. Signature guarantees from financial institutions that are not participating in one of these programs are not accepted as medallion signature guarantees. The fund may accept other forms of guarantee from financial intermediaries in limited circumstances.

Fiduciaries and corporations are required to submit additional documents to sell fund shares.

Minimum account size

The fund requires that you maintain a minimum account value of \$500. If you hold less than \$500 in your account, the fund reserves the right to notify you that it intends to sell your shares and close your account. You will be given 60 days from the date of the notice to make additional investments to avoid having your shares sold. This policy does not apply to certain qualified retirement plan accounts.

Telephone and website access

You may have difficulty contacting the fund by telephone or accessing www.pioneerinvestments.com during times of market volatility or disruption in telephone or Internet service. On New York Stock Exchange holidays or on days when the exchange closes early, Pioneer will adjust the hours for the telephone center accordingly. If you are unable to access www.pioneerinvestments.com or reach the fund by telephone, you should communicate with the fund in writing.

Share certificates

The fund does not offer share certificates. Shares are electronically recorded.

Buying, exchanging and selling shares

Other policies

The fund and the distributor reserve the right to:

- reject any purchase or exchange order for any reason, without prior notice
- charge a fee for exchanges or to modify, limit or suspend the exchange privilege at any time without notice. The fund will provide 60 days' notice of material amendments to or termination of the exchange privilege
- revise, suspend, limit or terminate the account options or services available to shareowners at any time, except as required by the rules of the Securities and Exchange Commission

The fund reserves the right to:

- stop offering Class Y shares
- suspend transactions in shares when trading on the New York Stock Exchange is closed or restricted, or when the Securities and Exchange Commission determines an emergency or other circumstances exist that make it impracticable for the fund to sell or value its portfolio securities
- redeem in kind by delivering to you portfolio securities owned by the fund rather than cash. Securities you receive this way may increase or decrease in value while you hold them and you may incur brokerage and transaction charges and tax liability when you convert the securities to cash
- charge transfer, shareholder servicing or similar agent fees, such as an account maintenance fee for small balance accounts, directly to accounts upon at least 30 days' notice. The fund may do this by deducting the fee from your distribution of dividends and/or by redeeming fund shares to the extent necessary to cover the fee

Dividends, capital gains and taxes

Dividends and capital gains

Each day the fund declares substantially all of its net investment income as a dividend to shareowners. Dividends are accrued each day and paid on the last business day of the month. The fund generally pays any distributions of net short-term capital gains in November. The fund does not anticipate making any distributions of net long-term capital gains. The fund may also pay dividends and distributions at other times if necessary for the fund to avoid U.S. federal income or excise tax.

Taxes

You will normally have to pay federal income taxes, and any state or local taxes, on the dividends and other distributions you receive from the fund, whether you take the distributions in cash or reinvest them in additional shares. For U.S. federal income tax purposes, distributions from the fund's net capital gains (if any) are considered long-term capital gains and may be taxable to you at reduced rates. Distributions from the fund's net short-term capital gains are taxable as ordinary income. All other dividends are generally taxable as ordinary income. Since the fund's income is derived from sources that do not pay dividends, it is not expected that any dividends paid by the fund will qualify for either the dividends-received deduction for corporations or the maximum 15% U.S. federal income tax rate available to individuals on "qualified dividend income."

The fund will report to shareholders annually the U.S. federal income tax status of all fund distributions.

If the fund declares a dividend in October, November or December, payable to shareholders of record in such a month, and pays it in January of the following year, you will be taxed on the dividend as if you received it in the year in which it was declared.

You must provide your social security number or other taxpayer identification number to the fund along with the certifications required by the Internal Revenue Service when you open an account. If you do not or if it is otherwise legally required to do so, the fund will withhold 28% "backup withholding" tax from your dividends and other distributions, and any other payments to you that are subject to backup withholding.

You should ask your tax adviser about any federal, state, local and foreign tax considerations relating to an investment in the fund. You may also consult the fund's statement of additional information for a more detailed discussion of the U.S. federal income tax considerations that may affect the fund and its shareowners.

Sales and exchanges generally will be taxable transactions to shareowners.

Financial highlights

The financial highlights table helps you understand the fund's financial performance since the inception of Class Y shares.

Certain information reflects financial results for a single fund share. The total returns in the table represent the rate that you would have earned or lost on an investment in Class Y shares of the fund (assuming reinvestment of all dividends and distributions).

The information below has been audited by Ernst & Young LLP, the fund's independent registered public accounting firm, whose report is included in the fund's annual report along with the fund's financial statements. The annual report is available upon request.

Pioneer Cash Reserves Fund

Class Y shares

	Year Ended 12/31/08	Year Ended 12/31/07	Year Ended 12/31/06	9/23/05 (a) to 12/31/05
